FOUNDING PILOT COHORT

Reimagine how you educate in a changing world.

A NEW PEDAGOGY, FROM FRAMEWORK TO PRACTICE

Introduction to TEP: Reimagine your teaching. Seven live online meetings with the author of TEP to bring the framework into practice in your teaching, training or facilitation, starting from where you are.

The book introduces the framework. The cohort brings it into practice. TEP, developed over 14 years, is set out in our open-access book *Transformative-Emancipatory Pedagogy (TEP) to Reimagine Education* (Palgrave Macmillan, 2025). No prior reading is needed: each week we work with the TEP framework and put it into practice in your own context.
